---

### Skills

---

I possess strong proficiency in web development technologies including HTML, CSS, JavaScript, React, Vite, Node.js, MongoDB, TailwindCSS, and Bootstrap, with extensive experience in utilizing these tools within the MERN stack. Additionally, I am well-versed in using Microsoft Office applications and have a solid foundation in Python and MySQL. My ability to work under pressure and within team environments, combined with my fast learning capabilities and excellent communication skills, allows me to adapt quickly and efficiently to new challenges and projects.

---

### Experience

---

#### Room Seven / Lighting Technician/Visual Jockey

APRIL 2024 - PRESENT, MILWAUKEE, WI

At Room Se7en nightclub, I expertly controlled the lighting system using ShowXpress, QuickShow, and Resolume Arena to create dynamic and captivating visual experiences. In addition to managing the lighting, I was responsible for servicing the computers and maintaining all equipment to ensure seamless operation and a top-notch experience for our patrons.

#### Northshore Organic Services / Marketing Manager/Web developer

JANUARY- 2024 - PRESENT, MILWAUKEE, WI

As the Marketing Manager at Northshore Organic Services, I led marketing campaigns and developed strategies to boost brand visibility. I also maintained and optimized the company's websites, ensuring a seamless user experience and effective online presence. This dual role enabled me to integrate marketing strategies with web development for cohesive and impactful digital efforts.

---

### Education

---

#### Arizona State University / Business Entrepreneurship

MAY 2015 - MAY 2020, TEMPE, AZ/ONLINE

Bachelor's degree in Business Entrepreneurship from ASU, focusing on innovative business strategies and start-up management.

#### University of Wisconsin Full Stack Development Coding Bootcamp

MONTH 20XX - MONTH 20XX, LOCATION

Completed the Full Stack Web Development Coding Bootcamp at the University of Wisconsin, gaining hands-on experience in HTML, CSS, JavaScript, React, Node.js, and MongoDB, with a focus on building and deploying full-stack applications.
